FOREWORD

The collection of music recently purchased, containing opera scores, librettos, vocal and instrumental music, etc., and books about music and musicians, with other material on the subject in the library, has been placed in the Open Shelf Room.

The collection has been entered as usual in the public card catalog under composer, author of words, title, kind of music, instrument and other subjects. In addition a separate composer and title index has been made for the Open Shelf Room of the songs and compositions in the books and scores of the entire collection. This index of more than 10,000 titles of vocal and instrumental pieces with the card catalog, makes the collection most valuable to the public. The collection is for the use of pianists and organists, teachers and classes, choir leaders and singers, professional and amateur musicians and all music lovers.

The printed list is issued to acquaint the public with the material to be had at the library and to assist in making selections for home use. The list is divided into two general heads, Music Scores and Books about Music, and these subdivided for quick reference. For the subdivisions, see table of contents.

The Library Board in issuing this printed list has taken another step to show the resources of the library and to encourage its use.

The Librarian is indebted to the musicians and music lovers of Louisville for their helpful suggestions in preparing the list for purchase.

George T. Settle, Librarian
